

BRAKE FLUID DOT 4

High-performance Brake Fluid

Description:

BRAKE FLUID DOT 4 is a high performance brake fluid developed for the requirements of modern passenger car brake-systems with disc or drum brakes.

Properties

- Wet boiling point > 160°C
- Boiling point > 260°C

Suitable for/ we recommend this product for

Brake fluid	DOT 4
Exceeds	DOT3
	(US Federal Standard 116)
FMVSS	116
SAE	J 1704
ISO	4925 Class 4

Effects

- More safety by reduced boiling point drop
- For all hydraulic brake systems
- Miscible with brake fluids of equal specification

Utilization

- car brake system according to DOT 3/DOT 4

Special Notes:

- Please store brake fluid only closed originally. Close tank of brake fluid airtightly straight after usage.
- Please unconditionally observe manufacturers information when refilling brake fluid.
- When refilling the hydraulic brake system absolute cleanliness is necessary.
- This fluid can cause damages at the paintwork.

Disposal:

- Brake fluid must be gathered and disposed separately. It may not be mixed with used oil.

Miscibility:

- **BRAKE FLUID DOT 4** is well-tolerated to comparable brake fluids. However, to guarantee complete efficiency it is recommended to use only **BRAKE FLUID DOT 4** when refilling.
